The opera to-night is Gluck's "Orpheus and Eurydlee," which made the chief success of the New York season, being performed thirteen times in fifteen weeks and invariably to crowded audiences. The east includes Miss Emma Juch, who is a favorite here, and Mme. Hastreiter, who has the reputation of being the finest mezzo-so-pane heard in this country in years.

May is also noted for the desire for new clothes. It is not only the season when all Nature takes on a new dress, but man also loves to array himself in bright and attractive labilaments. Spring clothes are always more showy than winter ones, because the absence of outer wraps affords more opportunity for display. Yet, for all that, fashion dictates that in this season's styles gray and homespun effects shall predominate.

Blue is a color rather rare in Nature. The extent of the firmament seems to compensate for its absence elsewhere. Blue is said to be a cold color, and as we desire every suggestion of coolness in the heat of summer, blue clothing is much more worn in summer than in winter.

The Fifth Month.

We anticipated this a year ago, and therefore made ample provision. One style of this sort we will men-sion: Lot 4,157, Gray Cheviot sack Coat Suits, sizes 34 to 42; price, fif-teen dollars. We believe few houses in the trade have made any provision of this sort, but WE HAVE.

\$15. Such are our blue serge sack coat suits, sizes from 33 to 4t, breast measure; fifteen dollars per suit, and warrasted fast colors.

When we speak of serge in this connection we mean a thin goods of long stapled wool and twilled. Properly speaking, serge or surge, so mamed after its resemblance to the waves as they roll upon the shore, is a twilled goods of any description or weight. It may be silk, wool, worsted, mohair, alpaca or cotton serge, or of any textile material.

Blue clothing is not confined to serge tatries. Our blue flannels are so well known that we sell immense quantities every season. We keep them in sizes to fit every one. Colors fast. For men they sell from ten to fifteen dollars per suit.

Our stock of serges in every conceivable shape and textile material is rather bewilder-ing to the beholder unless viewed in detail, and our polite salesmen are always disposed to make every possible display to the mutual advantage of disposer and consumer. One thing we have in such abundance as to merit special mention. That is corkserew diagonals in blue and black one and four button cutaway frock suits, all the way from lifteen to twenty-live dollars per suit.

To make a long story short, we have every thing that mortal can desire in the way of clothing, and our desire is to make you fully acquainted with that fact and the further fact, that nowhere else can you obtain better results than by investigating our claims to furnish the best goods for the least money.
